We're looking for a Software Developer to join our Team!

Due to continued success and company growth, we have an exciting opportunity for an experienced Full Stack Software Developer to join our team.

We work hard to plan, design and deliver multiple concurrent initiatives and strive to give our customers the best experience by offering unique features that differentiate us in the marketplace.

Working within our Keyzo Development Team the successful candidate will work both independently and collaboratively with the wider team to maintain and enhance two of our core software solutions; Induct&Train and Read&Sign. applying their experience, knowledge and skills in Javascript, PHP, CSS, NodeJS and HTML5 technologies.

This role is a fantastic opportunity for an experienced mid to senior level developer looking to further their career and potentially help us grow the team and take on additional responsibilities.

What you'll be doing!

As part of the Keyzo software development team you'll be involved in the development, support, and progression of our software solutions Induct&Train and Read&Sign.

- Working on our web applications using PHP, Javascript, NodeJs, HTML5, React, CSS3 and SQL Database
- Using Jira for development cycle using agile methodologies
- Involved in development road map planning and developing new software modules / features
- Working with the wider team and clients to identify and discuss further development opportunities
- Provide customer support and training
- Work to improve performance across our web applications
- Being creative and coming up with new ways to enhance our products using the latest technologies

Experience, Qualifications and Skills

- BSc in Computer Science preferred (2:1 or above)
- Desire and drive to develop excellent coding skills and good understanding of the necessities of cross-browser/devices
- Experience of React and JavaScript technologies to create rich interactive content
- Experience of PHP backend development and driven to learn and develop skills
- Ability to provide accurate estimates with regards to work and work to a defined schedule
- Ability to work both autonomously and collaboratively to meet deadlines
- Driven to maintain a high level of awareness of the industry and trends, particularly regarding software development
- An understanding of usability standards and emerging technologies
- Be a team player and keep team members informed as appropriate
- Work hard to keep Keyzo's software ahead of our competitors
- Maintaining an excellent level of customer service
- Good communication skills, oral and written
- Must have meticulous attention to detail

*although not a direct requirement for the role, the ideal candidate will hold a full drivers licence and have access to a vehicle in order to attend our offices as required for training and team meetings.

Why work for us?

At Keyzo we aim high and plan to be a Global Technology Leader and an employer of choice within our Industry. We are a Living Wage Employer and have committed our pledge to the Armed Forces Covenant as well as having a solid 4.8 rating on Glassdoor.

We genuinely believe that at the heart of every great company is a team of brilliant, driven professionals and as a values lead Company we work hard to ensure all our employees feel supported and motivated to achieve their very best.

We have lots of great employee benefits, including:

- 25 days annual leave which rises by a day with each years service up to your 5th year
- £50 Amazon voucher on your birthday

- Production and Loyalty Bonus Schemes (after 12 months service)
- Excellent pension scheme (5% employer contributions)
- Social events
- Development opportunities which includes a personal learning budget
- Holiday Purchase and Buy Back Scheme
- Life Assurance Benefit (4 x salary)
- Pay progression opportunities
- Remote working
- £1,000 joining bonus (after successful probation)

plus obviously the opportunity to work with a great bunch of people!

Location

Headquartered in Kirmington, North Lincolnshire, we also have offices in Hull, East Yorkshire and support remote and hybrid working, so we welcome applications from experienced developers within the UK..

How to apply
