

Job Title: App Developer
Reports To: Development Team Leader

Job Summary

At Bytron we believe that at the heart of every great company is a team of brilliant, driven professionals. We're a values-led Company and aim to ensure all our employees feel valued, supported and motivated to achieve their very best. Our aim is to exceed expectation and create innovative digital products that make information more accessible and useful, enabling people to achieve more.

Reporting to the Development Team Leader, the successful candidate will join our highly skilled aviation Development Team working on our cutting-edge flight data management software - skybook. We are looking for a Hybrid Mobile Developer who will be responsible for developing our web-based mobile applications, primarily using JavaScript and Less.

Our hybrid mobile applications use Apache Cordova. It is essential to have an understanding of the build-tools used to publish a Cordova application. This includes tools such as grunt, karma, jasmine, es-lint and xcode build tools. It is also advantageous to understand the Apple Development ecosystem, such as certificate management and Test Flight usage.

Location

Headquartered in the North Lincolnshire village of Kirmington, we also have offices in Hull, East Yorkshire and fully support a remote working schedule.

Accountabilities

- Designing, developing, and testing the hybrid mobile applications
- Participate in planning and estimation sessions
- Contribute to product documentation
- Explore migration paths from Cordova to React Native or similar
- Using Jira for development cycle using agile methodologies

Experience, Skills and Knowledge

The successful candidate will have:

- BSc in Computer Science (or equivalent; including self-learning paths)
- Solid commercial experience within Hybrid Mobile Development
- Excellent coding skills and good understanding industry best practices
- Experience with JavaScript and front-end styling libraries
- Have a passion for process and documentation
- Ability to provide accurate estimates with regards to work and work to a schedule
- Ability to work both autonomously and collaboratively to meet deadlines
- Maintain a high level of awareness of the industry and trends, particularly regarding development.
- Keep abreast of usability standards and emerging technologies
- Be a team player and keep team members informed as appropriate
- Good communication skills, oral and written
- Must have meticulous attention to detail

Qualities and Attributes

- A team player that is self-motivated and has a passion to learn
- Hard working, passionate and driven
- Ability to receive feedback positively
- Good communication skills, oral and written
- Ability to work well within a team as well as independently and to tight deadlines
- Must have meticulous attention to detail

Staff Benefits

- Excellent Pay (salary negotiable, depending on experience)
- Career progression and learning and development opportunities
- Starting on 25 days annual leave plus public bank holidays, annual leave rises with service years
- Pension scheme
- Flexible and remote working
- Holiday purchase scheme
- Summer and Winter bonus scheme
- £50 Amazon birthday voucher
- Social activities opportunities
